### **Student Feedback Analysis Report, 2023-2024**

The Institution conducts regular annual student feedback in order to improvement the quality standards of education delivery and improve the teaching learning process. Analysis of the student feedback survey for 2023-2024 reveals that overall students are satisfied with the quality of teaching learning experience on the Institution. The average score regarding various questions enquired to students reveals that the students need improvement in terms enhanced library services and improvement in sanitation facilities as well as coverage of syllabus in class. On the other hand, they are very satisfied with the level of safety in the college. They are also very satisfied with the evaluation process of the teachers and the experiential learning and exposure through extra-curricular and co-curricular activities. In addition, they are also satisfied with the teacher's approach to teaching and their preparation level in class and communication and the effort taken by teachers to focus on student specific needs.

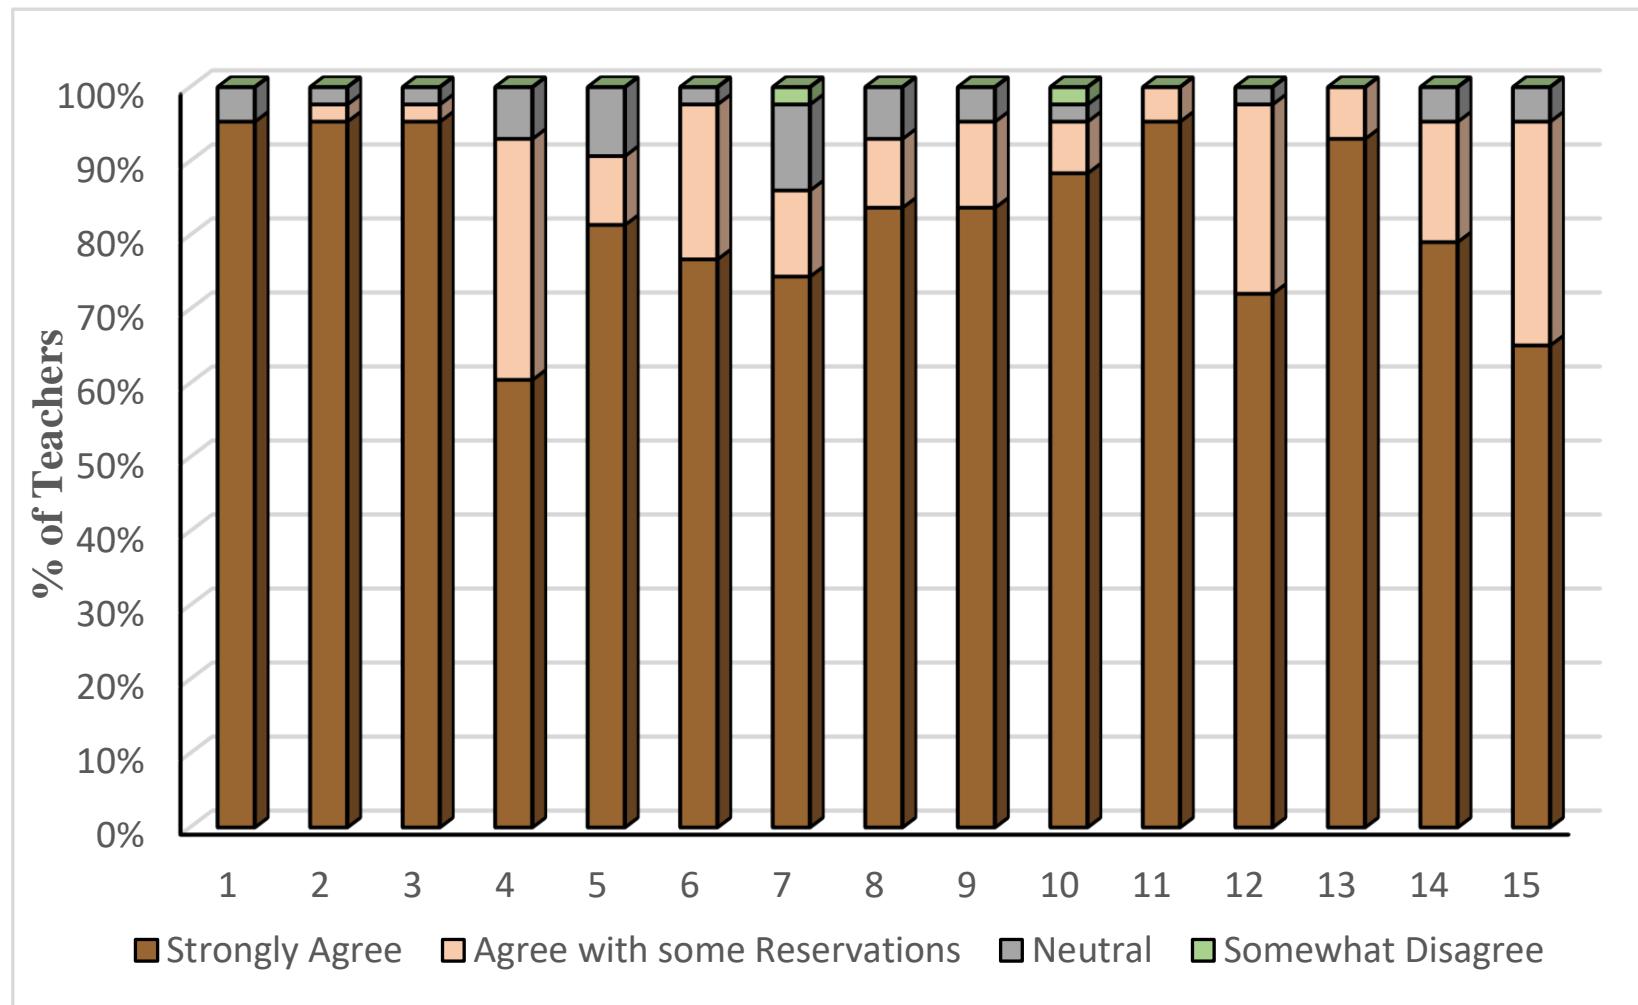

1. More than 80 per cent of students report that more than 70 per cent of syllabus is covered in class, however a significant segment expects greater coverage and feel there is scope for improvement in this regard.
2. Majority of students are satisfied with the thorough in-depth and updated level of preparation of teachers for the class and consequent curriculum delivery.
3. Teachers use different techniques and approaches to teaching that caters to the varied and yet specific needs of the subject curriculum, the students and is in line with their own academic expertise and experiences. Students across all streams and disciplines report that the approach of teachers to teaching is very good or excellent and caters to specificities.
4. More than 90 per cent of students agree that the internal evaluation process is fair and impartial and they have no grievances regarding the same.
5. Students are very satisfied with the student-teacher interaction and feedback mechanism. Most of the students are reasonably satisfied that the teachers discuss the assignments and through regular interaction and feedback at each stage, identify their strengths and their individual areas that need to be improved upon. They boost the students' confidence by encouraging each student based on their specific strength and help each one to overcome their challenges and develop their areas of weakness and hence ensure an overall improvement in performance.
6. More than 85 percentage of students are satisfied with the initiatives taken to promote their holistic development through extracurricular activities like cultural events, competitions and cocurricular activities like special practical exposure, lecture series, paper presentations to mention a few.
7. Although 75 percentage of students are satisfied with the library services about 15 percentage report scope for improvement. This may be on account of the introduction of the new NEP syllabus for which there are still not adequate text books available in vernacular language.
8. Another arena where although more than 70 percentage of students are well satisfied, some desire some improvement, is access to better sanitation facilities and safe drinking water. Upon greater interaction with students, the concern was found to be more significant in terms of sanitation than drinking water. This might be on account of the sheer disproportionate number of students and needs to be addressed.
9. The college office provides the students support from the inception during admission to final declaration of results when marksheets are distributed. The students are well satisfied with the cooperation of office in this regard, even in terms of the daily problems relating to scholarships and review of results.
10. Nearly all students are highly satisfied with the level of safety measures adopted by the Institution from use of CCTV to regular maintenance of fire extinguishers and in general monitoring and security at the entrance and within the Institution.

Students agree that the institution and teachers help to improve the quality of their teaching-learning process and are satisfied with the general level of infrastructure and safety. Majority students are of the opinion that the teaching process of the institution and faculty members facilitate overall emotional-cognitive-social development of their personality. The most prominent suggestions for improvement suggested by the students include improvement in use library facilities and need for more faculty to ensure greater coverage of syllabus. However, many are very satisfied with the Institution and do not report any problem as well.

**Analysis of Teachers' Feedback, 2023-2024**

## **BUDGE BUDGE COLLEGE**

### **Teachers Feedback Analysis Report, 2023-2024**

Analysis of the feedback from the faculty members on the overall performance of the institution revealed that the faculty members are satisfied with the academic logistics of the institution like preparation of master routine, syllabus division among the departmental teachers and its effective implementation, regular and continuous evaluation through various modes, provision of study material and resources to the students through diverse channels, use of innovative methods and ICT for curriculum delivery, library support with online resources, office co-operation and mechanism adopted for taking student's feedback. The teachers are also mostly satisfied with regard to availability of basic infrastructure and are assured of their safety due to the presence of CCTV.

However, few teachers suggest that there are some aspects where there is scope for improvement which include:

- need to have more interaction with and frank & enhanced responsiveness from students
- improved access to library facilities in the form of more books pertaining to the revised syllabus and newly introduced NEP syllabus
- the need for greater access to ICT facilities for teachers to prepare for their classes and for other logistics work
- more cleanliness in staff room and improved access to safe drinking water
- more effective participatory initiatives for healthier green campus environment

In summary, it can be stated that the teachers are satisfied regarding academic and administrative facets, though there is scope for improvement in terms of student responsiveness, access to ICT infrastructure, facilities and improvement in college environment.

**BUDGE BUDGE COLLEGE**  
**Action Taken Report: Feedback, 2023-2024**

<b>Recommendation</b>	<b>Action Taken</b>
Students and teachers expressed a need for improvement in library facilities.	<p>Detailed discussion revealed need for more books in vernacular language and regarding access to book purchase in vicinity of college.</p> <p>Hence, it was decided to purchase the books release for different subjects on the new NEP curriculum at the earliest for at least the initial two semesters. It was decided that more books in vernacular would be purchased for the students through the remaining RUSA grant.</p> <p>In the meantime, preparation of a repository of other study material was initiated in a more organized accessible manner at the department level and library for their access.</p> <p>In addition, a book fair was organized by the Institution to increase access of students to books within the college and at more reasonable rates.</p>
Few students expressed a need for greater coverage of syllabus	<p>As there was a dearth of teachers in some teachers, and teacher recruitment process outside the purview of the Institution's framework; the college teachers ensured to put in extra hours of teaching through extra class even outside their normal schedule. In addition, three new recruitments were also undertaken through the formal process of CSC recommendation in the year.</p>
Students expressed a need for sanitation in the college campus.	<p>In order to increase awareness regarding sanitation a Campus cleaning Program was organized and in addition for sanitation improvement a 'Sanitary Pad Vending Machine' was installed for female students. The Institution focused more on segregated waste management through separate location for separate types of waste disposal based on colour coding.</p>
Teachers expressed need for more initiatives for greener environment in the college.	<p>The Institution took several initiatives for enhancing greenery in the college campus through Training on Environment and Sustainable Development.</p>
Teachers expressed need for greater cleanliness in the staff room.	<p>The college took special measures to make the staff room clean through more regular maintenance and its monitoring through proper schedule.</p>
Teachers expressed a need for greater access to ICT facilities for class preparation and other logistics	<p>Several Arts based departments were also provided with a computer with internet access and two PCs with photocopying and printing facility were also allocated and maintained in the Teacher's room for logistic work.</p>
Teachers expected a need for better responsiveness from students.	<p>In order to achieve this objective each department held more interaction and doubt clearing sessions with each semester and adopted greater innovative teaching methods and greater use of ICT in the teaching-learning process to initiate and encourage more immersive learning and hence greater responsiveness from students.</p>
